OBSERVATIONS.—In September, 1903, Government on the recommendation of the Board of Revenue, approved of the formation of Standing Committees to

consider questions relating to protective embankments in the districts of Cuttack, Puri and Balasore. The Board of Revenue in proposing these Committees had written :—

“While, however, a commission may be dispensed with it is very desirable, to associate the Commissioner and the Collectors, in their respective districts, with the Engineer staff in the decision as to the works which should be carried out; and it is, in fact, the case that the views of these officers have generally been obtained on proposals for works. The Board are not aware that the method of consulting the civil officers in schemes of works prepared by the officers of the Public Works Department which had hitherto been followed, has proved unsatisfactory, but they are disposed to agree with the Government that a Standing Committee for each district, including the Commissioner of the Division, the Superintending Engineer, the Collector of the District, and the Executive Engineer, might, with advantage, be constituted. Such a Committee would bring the civil officers and professional officers into closer relation, and proposals started by the former or the latter would be discussed without the delay inevitable to correspondence.”

This was written with respect to Orissa where conditions are to a certain extent peculiar. The embankments in charge of the Public Works Department are all maintained at the cost of Provincial Revenues and the settlement of the Land-revenue is temporary. However, the general principle that the Engineers and the Revenue Officers should work in conjunction applies every where.

Besides in other parts of the province where embankments are maintained at the cost of the estates benefited, questions arise regarding the legal obligations on Government, and as is shown in the Chief Engineer's note, the Engineers have not always consulted the Revenue Officers before taking action.

It is also very desirable that the Engineer and Revenue Officers should discuss locally suggestions for minor irrigation schemes or for improvements in drainage, and that landholders interested should join in the discussion.

RESOLVED.—It is therefore directed that Standing Committees shall be formed for all districts. The Committees to be constituted as under—

President	The Commissioner of the Division
Vice-President and Secretary	The Collector of the District.
			{ The Superintending Engineer in whose circle the district lies.
			{ The Executive Engineer in whose division the district lies.
			{ The District Engineer.
Members	"	...	{ Such landholders or other gentlemen directly interested in any schemes as may be appointed by Government on the recommendation of the Collector and with the approval of the Commissioner.

The Committees will consider questions relating to—

I.—Flood embankments :—

- (a) New works, including such as sluices or escapes for existing embankments.

Rules and Orders made under Bengal Acts—*contd.*

BENGAL ACT II OF 1882 (THE BENGAL EMBANKMENT ACT, 1882)—*contd.*

- (b) Alterations in the alignment of existing embankments, such as are caused by important retirements. This will include the discussion of the policy of holding a threatened bank by protective works in preference to the retirement of the embankment.
- (c) Proposals for raising the level of the crest of an embankment.
- (d) All questions in which there is any doubt as to the interpretation to be given to the provisions of the Embankment Act or of contracts for the maintenance of embankments.

II.—Any proposal which may be suggested for a minor irrigation work.

III.—Any scheme which may be proposed for improvement in drainage.

IV.—Any matter referred by Government for opinion.

Meetings of the Committee will be convened by the Commissioner whenever required. They may be held where most convenient to the members generally. In the absence of the Commissioner the Collector of the district as Vice-President will preside. The proceedings will be recorded in the Collector's office and copies of proceedings will be sent to Government by the Commissioner.

ORDERED.—Ordered that a copy of this Resolution be forwarded to the Board of Revenue, Lower Provinces, Government of Bengal, Revenue Department, Commissioners of Divisions, Collectors of Districts, Superintending Engineers of Irrigation and Public Works Circles, Bengal for information.

MUNICIPAL DEPARTMENT—MUNICIPAL.

Ranchi, the 31st August, 1904.

READ—

Resolution No. 2057 T.M., dated the 29th August, 1903.¹

ORDER—In the above Resolution the Commissioners of the Santipur Municipality were superseded for a period of one year under section 65 of the Bengal Municipal Act, 1884; and the Government ordered, under section 66, that all their powers and duties should, during that period, be exercised and performed by the Sub-divisional Officer of Ranaghat.

2. That period will now expire on 2nd September, 1904. The Lieutenant-Governor is of opinion that the number of members of the Municipality as hitherto existing is too large for so small a town and that the Municipal Committee is consequently an unwieldy and ineffective body. The Subdivisional Officer of Ranaghat has submitted a proposal under section 9 (e) of the Act that the number should be reduced from twenty-five to nine; and the

Lieutenant-Governor is pleased to direct that a Notification to that effect be published in the next issue of the Calcutta Gazette.

3. The Lieutenant-Governor is also of opinion that it is desirable for the present, in the interests of the town, that the Chairman and the Commissioners shall be appointed by the Local Government. His Honour trusts that it will be possible soon to restore to this Municipality its former privileges, and the question will be considered on the expiry of another year. Meanwhile the Lieutenant-Governor is pleased to direct, under section 66 of the Act, that this Municipality be entered in both the first¹ and second² Schedules of the Bengal Municipal Act, 1884.

Notification No. 520 T.M., dated the 11th June, 1910 (published in the Calcutta Gazette of 1910, Part 1B, p. 83).

IN exercise of the power conferred by section 66 of the Bengal Municipal Act, 1884 (Bengal Act III of 1884), read with section 23 of the Bengal General Clauses Act, 1899 (Bengal Act I of 1899), the Lieutenant-Governor is pleased to rescind so much of the Resolution of the Government of Bengal, dated the 31st August, 1904,³ as directed that the Santipur Municipality should be entered in the first Schedule to the first-mentioned Act.

Notification No. 818 T.M., dated the 13th September, 1910 (published in the Calcutta Gazette of 1910, Part 1B, p. 141).

IN exercise of the powers conferred by clauses (i) and (ii) of sub-section (1) of section 69 of the Bengal Municipal Act, 1884 (Bengal Act III of 1884), and by clauses (e) and (m) of section 138 of the Bengal Local Self-Government Act of 1885 (Bengal Act III of 1885), the Lieutenant-Governor is pleased to direct that the following rules for the preparation, submission and execution of projects for water-supply, sewerage or drainage by local authorities shall be substituted for the like rules published with Government Notification No. 1712 M., dated the 7th July, 1906, at pages 111 to 113, Part 1B of the Calcutta Gazette of the 11th idem, namely:—

RULES FOR THE PREPARATION, SUBMISSION AND EXECUTION OF PROJECTS OF WATER-SUPPLY, SEWERAGE OR DRAINAGE BY LOCAL AUTHORITIES.

1. (1) Whenever a local authority desires to undertake a project for water-supply or sewerage or a comprehensive scheme of surface drainage, it shall first cause to be drawn up a sketch of the project roughly showing its scope and approximate cost.

¹ This Resolution is rescinded in so far as it relates to the placing of the Santipur Municipality in the First Schedule to the Act by Notification No. 520 T.M., dated the 11th June, 1910, printed *post*, on this page.

² The Santipur Municipality has been removed from the second Schedule by Notification No. 637, dated the 23rd March, 1911, printed *ante*, p. 868.

³ Printed *ante*, p. 871.

Rules and Orders made under Bengal Acts—contd.

BENGAL ACT III OF 1884 (THE BENGAL MUNICIPAL ACT, 1884)—contd.

(2) Such sketch may be drawn up either by the Sanitary Engineer at the special request of the local authority and with the approval of the Sanitary Board and on payment of the fees prescribed in Rule 8, or by any firm or person approved by the Sanitary Engineer.

(3) The Sanitary Engineer shall, in all cases, act as adviser of the local authority.

2. When the sketch of the project has been drawn up under Rule 1, and it is estimated to cost Rs. 10,000 or more, or in the case of an estimate of less than Rs. 10,000 if the financial assistance of Government is desired, the local authority shall submit it to the Sanitary Engineer who shall make such recommendations as he may think fit. After the approval of the Sanitary Engineer has been obtained, the sketch project shall be submitted by the local authority to the Municipal Department of Government, together with a statement wherein shall be shown the amount of the funds available to meet the cost of the project, either from current revenue or by way of loan or from any other source.

In the case of schemes the total estimated cost of which is less than Rs. 10,000, not being part of a larger scheme and for which financial assistance from Government is not required, the sanction of Government need not be obtained, but if the local authorities so desire, the scheme will be examined by the Sanitary Engineer.

3. In order to obtain administrative approval to the execution of the project the local authority shall satisfy Government—

- (1) that the cost of maintenance of the projected work can be met by the local authority from revenue ;
- (2) that any loan required to meet the cost of the work can be repaid together with the interest thereon, within the period that may be prescribed by the Government ; and
- (3) that the work can be done effectually in the manner and for the cost proposed.

4. When the administrative approval of Government has been obtained, and in no case before, the local authority may arrange for the preparation of detailed plans and estimates, and for this purpose may—

- (a) cause the plans and estimates to be prepared by its own officers or by an officer specially appointed for the purpose and apply to the Sanitary Engineer for assistance in the selection and engagement of surveyors to carry out the work ; or
- (b) apply to the Sanitary Board for the services of the Sanitary Engineer ; or
- (c) apply to Government in the Public Works Department for the services of their officers ; or
- (d) apply to the District Board for the services of the District Engineer ; or
- (e) with the previous sanction of the Sanitary Board, entrust the work to a private firm of established reputation.

BENGAL ACT III OF 1884 (THE BENGAL MUNICIPAL ACT, 1884)—*contd.*

In cases of (a), (c), (d) and (e), the plans and estimates while in course of preparation shall be subject to the examination and control of the Sanitary Engineer.

Submission of detailed plans and estimates to Government through Sanitary Board.

5. The plans and estimates shall, on completion, be forwarded in duplicate to the Sanitary Board, together with a full report on the financial aspect of the scheme and the state of public feeling in regard to it, and, if a loan is required, with an application in the prescribed form. In the case of drainage schemes the estimates must be submitted in Sanitary Board's forms Nos. 21 and 22, copies of which may be obtained from the office of the Sanitary Engineer, and when the scheme has not been prepared in the Board's Office, they shall be accompanied by full details of the calculations of the sizes and strength of the various works, and complete information as to the prices on which the estimates have been framed.

The Sanitary Board, after examining the plans, estimates, report and application, shall submit them to the Municipal Department of Government with an expression of their opinion on the merits of the scheme as finally drawn up.

Conditions as to detailed engineering supervision.

6. Where the cost of the projected work is estimated to amount to Rs. 10,000 or more, an adequate provision for detailed engineering supervision shall be a condition precedent to the grant of sanction by the Government.

In the absence of special sanction to the contrary, the local authority shall agree to such one of the following conditions as may be considered suitable in each case :—

- (a) that the work shall be carried out by the Public Works Department if that Department can undertake it : in such cases an extra charge of 15 per cent. on the sanctioned estimates shall be made for supervision, unless the case is one of extraordinary difficulty, under which circumstances a higher charge may be imposed under the orders of Government ; or
- (b) that arrangements shall be made with the District Board for the carrying out of the work under the supervision of the District Engineer and his staff ; or
- (c) that the work shall be carried out under the supervision of an Engineer qualified for appointment as a District Engineer according to the rules under the Local Self-Government Act of 1885 (Bengal Act III of 1885) specially employed for the purpose ; or
- (d) that the work shall be carried out by a private engineering firm of established reputation :

Provided that the local authority shall not advertise for tenders or enter into any contract or agreement for the execution of any works in connection

with schemes or parts of schemes which have been sanctioned by Government under conditions (b), (c) or (d), until the specification and form of tender for such contract have been examined and approved by the Sanitary Engineer. No tender or contract for any such work shall be accepted until it has been submitted to the Sanitary Board and they have approved the acceptance thereof ;

and further provided that when the work is carried out under condition (d), it shall be supervised by an officer appointed for the purpose by the local authority with the approval of the Sanitary Board, and shall, while in progress, be periodically inspected by the Sanitary Engineer.

7. Where the estimated cost of works amounts to less than Rs. 10,000, the local authority shall report, for the information of the Commissioner of the Division, the agency by which it is proposed to have the works carried out, and shall follow the instructions issued by him in the matter.

Report to local authority to the Commissioner in case of small works.

FEES.

¹[8. The following fees shall be leviable by the Sanitary Board from local authorities for the work specified against each —

- (a) a fee of two *per cent.* on the estimated cost (excluding cost of surveys) of all projects and schemes, for which detailed estimates and drawings are prepared by the Sanitary Engineer ;
- (b) a fee of one-half *per cent.* on the first Rs 20,000 and one-quarter *per cent.* of the balance, of the estimated cost of schemes and projects, the detailed plans and estimates of which are examined by the Sanitary Engineer ;
- (c) a fee of two *per cent.* on the estimated cost of the works, when contract drawings, specifications and forms of tender are prepared by the Sanitary Engineer :

Provided that when both detailed estimates and drawings and contract drawings, specifications and forms of tender are prepared by the Sanitary Engineer, an inclusive fee shall be charged of three *per cent.* on the estimated cost of the works.

¹[9. When sketch projects are prepared by the Sanitary Engineer, no charge will be made for his services or those of his assistants, Government surveyors, draftsmen, and tracers ; drawing materials and the instruments required for the work will also be provided at Government expense. But the local authorities will be required to render reasonable assistance on the spot in the way of survey coolies, supply of survey pegs, fixing bench marks, etc., and to pay the actual cost of the same. They will also be expected in each case to provide a suitable office properly furnished for the use of the surveyors and draftsmen.]

APPENDIX B.

RULES FOR WORKING FILTER-BEDS OF WATER-WORKS IN BENGAL.

(Revised by order of the Sanitary Board, Bengal, 26th May, 1896).

1. • The depth of water above the surface of the sand in a filter-bed should never be allowed to exceed two feet; care should be taken to always maintain this depth of water as long as filtration is in progress, and for this purpose gauges should be painted on the side walls of the filter-beds.

Rules and Orders made under Bengal Acts—*contd.*BENGAL ACT III OF 1884 (THE BENGAL MUNICIPAL ACT, 1884)—*contd.*

2. The water collecting in the drains of a filter-bed is usually discharged into a small masonry well, called the *outlet-well*, from whence it passes through a sluice into the

clear-water reservoir; the difference of level between the surface of the water in the filter-bed and that in the outlet-well is called the *filtration head*; the rough sketch in the margin explains this clearly. The *filtration head*

should not under ordinary circumstances exceed six inches, but in cases of emergency it may be allowed to reach as much as twelve inches. Full reasons for allowing the filtration head to exceed six inches should be recorded in the filter-bed log-book.

3. The interiors of outlet-wells should be painted white, and gauges should be painted on the side walls, so that the filtration head may be accurately recorded.

4. Readings of all gauges should be taken every two hours while the filters are at work, and recorded carefully in the log-book (Sanitary Engineer's Form No. 5) or in any other form approved by the Sanitary Engineer.

5. Filter-beds should not be worked continuously, but the surface of the filtering material should be exposed to the air for at least eight hours out of the twenty-four, so as to enable the air to penetrate and so oxidize any organic matter deposited in the interstices of the filtering material by the unfiltered water. Filter-beds should, preferably, be run dry at night time only.

6. Filter-beds should *not* be charged from below or by admitting water upwards on to the surface of the sand. When a filter-bed is to be brought into work, the outlet valve should be kept closed until the depth of water on top of the sand remains at the limit prescribed in rule 1, *i.e.*, two feet, care should be taken not to disturb the surface of the sand by admitting water too rapidly at first.

7. Sand that has been scraped from the surface of filter-beds should be left exposed to the air for six or seven days before it is washed and replaced in the filter-beds.

8. The fine sand in a filter-bed should never be reduced by scraping to a less depth than 12 inches. When sand washers are available, the fine sand should be brought up to its correct thickness after every third scraping, so that the rate of flow through the filtering material may be kept as uniform as possible.

9. The filtering material and brick drains should be entirely removed from the filter basin once every four years. The pebbles, or broken stone, and the coarse sand may be replaced, provided they have been thoroughly exposed to

Rules and Orders made under Bengal Acts—*contd.*

BENGAL ACT III OF 1884 (THE BENGAL MUNICIPAL ACT, 1884)—*contd.*

the air while the brick drains are being laid; they should be spread out in thin layers and turned over with spades at least once a day. The fine sand should be entirely renewed. When a filter-bed has been reconstructed and charged, the filtered water flowing from it should be allowed to run to waste for at least 48 hours.

10. Water should not be allowed to remain in settling tanks longer than is necessary for the deposition of suspended mineral matter, such as clay, sand, etc. Whenever the water of the source of supply is sufficiently clear, it may be pumped direct into the filter-beds, or if the intermittent character of the flow causes damage to the surface of the filtering material, the water may be passed through the settling tanks at a low level without being allowed to stagnate.

3. All receipts and payments of the Union Committee shall be recorded in a cash-book in Form No. II on the same day that the money is received or paid. Cheques received from the District or Local Board in payment of contributions from the District Fund, or remitting the net income of pounds situated within the Union, shall not be entered in the cash-book until they have been realized in cash. BENGAL ACT III OF 1885 (THE BENGAL LOCAL SELF-GOVERNMENT ACT OF 1885)—*contd.*

4. The balance standing at the credit of the Union Fund, shall remain in the custody of the Chairman.

5. Every bill, or other claim for payment from the Union Fund, shall show full details of the charges, shall be signed by the person to whom the money is actually due, and shall bear a certificate to the effect that the work billed for has been actually completed. At the time of making payment, the Chairman of the Committee shall take a receipt, stamped if necessary, from the payee, and endorse the bill with the words "Paid Rs. only (Rs.)," the amount being written in words as well as figures. This endorsement shall be dated and signed by the Chairman, and bear the number of the voucher as in the cash-book.

6. At the close of each quarter a consolidated account, showing the total receipts and payments during the period under the several heads of accounts with opening and closing balances, shall be prepared in a form similar to the cash-book, but omitting the first three columns on the receipt side and the second and third columns on the payment side. This account, accompanied by the vouchers in original, shall be submitted to the Local Board not later than two days after the close of the quarter, and the Local Board shall submit the accounts to the District Board within a week from the date of the receipt of the accounts in their office.

7. The quarterly account prepared in the manner laid down in the foregoing rule shall be published under section 58 of the Act, by lodging a copy signed by the members of the Union Committee in the office of the Magistrate in charge of the sub-division within which the union lies, or in the office of the Magistrate of the district in the case of the Sadar sub-division. An annual account in a similar form, accompanied by a statement of the charges for establishment (if any), the works undertaken, and the sums expended on each work, shall also be published in the aforesaid manner.

8. The quarterly and annual accounts shall be published as provided in the last preceding rule, not more than one month after the close of the period to which they respectively relate.

9. On receipt of the quarterly account from the Union Committees, the Local Board shall audit and forward it with the vouchers to the District Board for incorporation in the cash-book and accounts of the District Fund.

10. Contributions from the District Fund, and the net income of union pounds paid to Union Committees, shall be debited in the District Board's accounts to the adjusting head "Contribution from local to local," and when they appear as receipts in the account submitted by the Union Committee, the same head shall be credited. All other receipts and charges shall be recorded under the appropriate revenue and service heads of account. The transactions of the Union Committees exhibited in the quarterly account shall be incorporated in the cash-book of the District Board after the transactions of the Local Boards. The total payments only under each head of account shall be recorded, and not the details shown in the vouchers.

In closing the cash-book of the District Board, the balances in the hands of the Union Committees shall be deducted from the sum of the cash-book balance, and the uncashed cheques to effect an agreement with the treasury balance. Similarly, in the monthly account (Form IX) the Union Fund balances to be shown in detail shall be added to treasury balance, and from the total the uncashed cheques shall be deducted to arrive at the cash-book balance.

If more than one vessel is used for the same purpose, each must be distinguished by a progressive number.

(2) Before the license to brew is granted an Excise officer authorized by the Commissioner will inspect the premises, etc., compare the same with the particulars stated in the aforesaid written description, and certify accordingly. The license will be granted by the Collector with the sanction of the Commissioner of Excise, if the description be found satisfactory and the applicant be considered a fit person to receive a license.

IN exercise of the power conferred on him by section 86 of the Calcutta Improvement Act, 1911 (Bengal Act V of 1911), the Lieutenant-Governor in Council is pleased to make the following rules for carrying out the purposes of section 82 of that Act.

1: The increased duty imposed by section 82 of the Calcutta Improvement Act, 1911, on instruments of sale, gift and usufructuary mortgage, respectively, affecting immoveable property situated in the Calcutta Municipality, shall be paid and recovered in the same way and under the same procedure as the ordinary duty imposed by the Indian Stamp Act, 1899, on such instruments.

2. Whenever the said increased duty amounts to a sum which is a multiple of two annas plus a fraction of two annas, the said fraction shall not be collected, since stamps for use under the Indian Stamp Act, 1899, are not issued for any sum less than two annas.

(a) property situated in the Calcutta Municipality, and

respectively, as is required by section 82 (2) of the Calcutta Improvement Act, 1911,

II of 1899. (2) If the said particulars be not so separately set forth in any such instrument, the said officer must impound it and forward it to the Collector, calling his attention to section 64 of the said Indian Stamp Act, as amended by section 82 (3) of the said Calcutta Improvement Act.

4. (1) Every registering officer in Bengal who registers any instrument referred to in rule 1 shall keep an account of the duty paid in respect of each such instrument, showing separately the duty imposed by the Indian Stamp Act, 1899, and the increased duty imposed by the Calcutta Improvement Act, 1911.

(2) The said accounts shall be consolidated quarterly under the orders of the Inspector-General of Registration, and each quarterly consolidated account shall be sent by him to the Accountant-General, Bengal, within two months after the close of the quarter.

6. The Accountant-General of Bengal shall, within three months after the close of each quarter, pay to the Board of Trustees constituted under the Calcutta Improvement Act, 1911, so much of the duty shown in the said consolidated account as represents the increase imposed by section 82 of that Act.
